Website: www.notion.so

Main features:

- Kanban board
- Gantt charts
- Tables
- Checklists
- Automatic Backlinking

Cost: Free for personal users

Compatibility: Browser-based, iOS, Android, Mac, Windows – also has a browser clipping extension for Chrome, Safari, and Firefox

Others to try!

Sharepoint (Microsoft) -\$5/mo (per user) – create wikis, collaborate, manage files

Google Keep – free – note taking for the 21st century – browser based

Evernote – free or \$8/mo for notes, attachments, searches, synch with Google calendar

Obsidian (obsidian.md) – free – open source – locally hosted (not on the cloud, on your computer)- all in markdown – connects your documents in a web, not a hierarchal organization system
